

ITCA WIC SEMI-ANNUAL VENDOR PRICE/STOCK REPORT

FY 2013-2015

INSTRUCTIONS

Complete all sections of pages 5 through 11, documenting the price and quantity of each WIC food item currently on the shelf or in inventory housed at your store location. If a space is left blank, the WIC program will assume that your store does not have that particular food item. **Do not estimate or project prices or stock.** The Semi-Annual WIC Vendor Price/Stock Report must reflect **actual** shelf prices and **actual** stock on hand **at the time of completion**. [Exception: Pharmacies shall be exempt from this requirement if they are contracted to provide only “special infant formula”.]

1. Carefully read through the ITCA WIC Program Minimum Stock Requirements on pages 2 through 4.
2. On pages 5 through 11, answer all yes and no questions and list the **highest** actual shelf price for each WIC food item in stock (except for milk, please list lowest price). Fill in the price for the exact size listed. **NOTE:** you must carry both milk and soy based iron fortified infant formula. Low iron formula may not be counted in the quantity listed.
3. After completing pages 5 through 11, sign below to certify the accuracy of this report.
4. If you would like a copy of this report, please copy before you submit the report to the State Agency.

CERTIFICATION

I certify that:

- i. I am authorized to act on behalf of the Vendor.
- ii. I have verified that the required amounts of WIC inventory described on pages 5-11, are either on the shelves or in inventory housed at the Vendor’s store location.
- iii. I have verified that the prices listed on pages 5-11, are true and correct.
