

Tribal Water & Wastewater System Technical Assistance

New! ITCA Tribal Water & Wastewater Technical Assistance to Tribal Communities

About Tribal Water System Program Technical Assistance Services

The Inter Tribal Council of Arizona (ITCA) Tribal Water System Program is dedicated to providing technical assistance to tribes to develop technical, managerial, and financial capacity, as well as water & wastewater utility sustainability through education, access to resources, training, and technical assistance. The program partners with federal agencies and other organizations to ensure these services are available to Tribal Water Utility operators and managers.

ITCA staff is available to assist utility decision makers and staff with a variety of technical, managerial, and financial issues relating to operation of community water and wastewater systems. This assistance can involve onsite visits to your facility, or it can be accomplished through phone or email communication. Let us know how we can help.
